
Installation Notes

Release 3.9.7

NFX Trades is a Windows-based application that aggregates and ranks FX rates from multiple liquidity providers so you can execute the best trade available. Sophisticated order-matching logic and powerful configuration options give you complete control over your trading activity.

This document provides information about installing the NFX Trades client application on users' computers.

IMPORTANT You must have sufficient permissions to install NFX Trades on your workstation, including permissions to download the installer, run the installer, and write NFX Trades files to the workstation. If you are unsure about your system permissions, contact your systems administrator.

Requirements

Network Connectivity	Minimum	128 Kbps connection
	Recommended	Fractional T1 (512 Kbps)
Hardware	Minimum	Pentium III 600 MHz processor with 256 MB RAM

Getting Your Copy of NFX Trades

NFX hosts the NFX Trades installer on this secure, password-protected web site:

<http://www.integralsupport.com/nfxtrades/index.htm>

To download the installer from this web site, you must have a valid user ID and password.

To download the NFX Trades client installer:

- 1 Start Internet Explorer.
- 2 In the **Address** field, enter <http://www.integralsupport.com/nfxtrades/index.htm> and press Enter.

The NFX Trades support home page appears.

- 3 Click **Continue**.

The NFX Trades client authentication dialog appears.

- 4 Enter your user name and password.

If you do not have your user name and password, contact NFX Business Support:

- E-mail integral@nordfx.com
- Call Europe +31 8778 494 77.
- Call Asia +86 158 406.

- 5 Click **OK**.

The NFX Trades download page appears.

IMPORTANT NFX Trades requires the Microsoft .NET Framework. The NFX Trades download page offers the installer with or without the .NET Framework.

- 6 Click **Download Now** to download the installer either with or without the .NET Framework, based on your requirements.

The File Download dialog appears.

- 7 Click **Save**.

The Save As dialog appears.

- 8 Select the directory where you want to save the installer.

- 9 Click **Save**.

The NFX Trades client installer is saved as an executable file (NFX-Setup.exe) in the directory you chose.

Installing NFX Trades

You must download the NFX Trades client installer first. See [“Getting Your Copy of NFX Trades”](#) on page 2 for information about downloading the installer.

To install NFX Trades:

IMPORTANT You must uninstall the previous NFX Trades version, if any, before installing the current version.

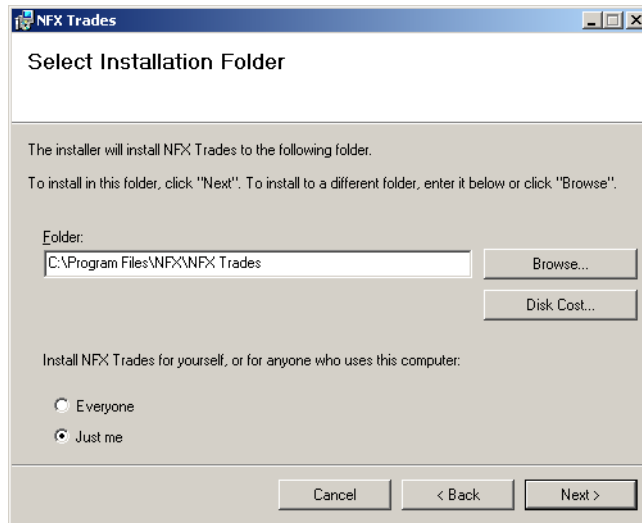

- 1 Run the NFX Trades client installer you have downloaded.

The NFX Trades installation welcome screen appears:

- 2 Click **Next**.

The Select Installation Folder screen appears:

- 3 Specify the installation directory:
 - To install NFX Trades in the default directory, go to [Step 4](#).
 - To install NFX Trades in a custom directory, click **Browse** to choose this directory.

IMPORTANT The NFX Trades installer creates a **Data** directory in the install directory that you specify. Users must have write permission on this directory in order to run the NFX Trades client application. If you are unsure about granting write permissions, contact NFX Business Support.

- 4 Click one of the following radio buttons:
 - Everyone** to install NFX Trades for all the users of this computer. All users who log in to this computer see the installed shortcuts and can run NFX Trades.
 - Just me** to install NFX Trades for you only.

TIP Click **Disk Cost** to see a list of drives on your computer, the available space on these drives, and the space required for installation.

- 5 Click **Next**.

The Confirm Installation screen appears.

- 6 Click **Next**.

The installer installs NFX Trades in the directory you chose. When the installation finishes, the Installation Complete screen appears.

- 7 Click **Close**.

Starting NFX Trades

To start NFX Trades:

- 1 Select **Start > Programs > NFX Trades > NFX Trades**.

The NFX Trades login screen appears:

TIP You can also double-click the NFX Trades icon on your Windows Desktop to start NFX Trades.

- 2 Enter your organization, user name, and password. If you do not have this information, click the help button in the login screen () and contact support using the information provided.
- 3 Click **Login**.

CAUTION By clicking **Options**, you can configure the network connectivity parameters for your NFX Trades installation. Do not change these parameters without consulting your administrator.

Uninstalling NFX Trades

To uninstall NFX Trades:

- 1 Click **Start > Settings > Control Panel**.

The Control Panel dialog appears.

- 2 Click **Add or Remove Programs**.

The Add or Remove Programs dialog appears.

- 3 Select **NFX Trades**.

- 4 Click **Remove**.

Windows uninstalls NFX Trades from your computer.
